WHAT WE DO

WHEN WE CREATE FURNITURE, WE LOOK FOR THE BEST POSSIBLE HARMONY BETWEEN CULTURE AND NATURE

It has survived not only five centuries. When an unknown printer took a galley of type and scrambled it to make a type specimen book.

LIVING ROOM FURNITURE

Design, followed by Form & Function. Our core values allow us to innovate & push forward.

UNIQUE PERSPECTIVE

The collection's iconic tables are all entirely made of certified, solid reclaimed teak wood of high quality, sourced from century-old houses from remote villages in East Java.

Standout design features include the distinctive joineries on the legs, which are inspired by a traditional Javanese house construction system called 'Purus', in which wooden joints are carefully fitted together in an artisanal way.

WE WORK DIFFERENTLY.

With **design & conceptual** decisions, we create value for the objects.

The collection's cabinets are the perfect storage solution for your dinnerware or home decoration, while being a beautifully decorative element in your home at the same time. All Salvage cabinets and dressers are made from small reclaimed teak slats in various color tones, beautifully combined with a matte black finished iron frame. The ultimate proof that opposites attract.

Simple, yet refined: The Artisan collection is a true ode to craftsmanship.
